

Welcome to the “PLENUM” Collaborative Toolkit BETA Test

Plenum Link: <https://ssgwm25.github.io/Fractured-Order/>

Playthrough Session Code: QUAD2026

Operator Access Code: SME2026

SSG Mission

- Design, develop, and execute professional-level wargames and statecraft simulations that prepare executive leaders across government, NGOs, and the corporate community for strategic decision-making in complex geopolitical and economic environments.
- Deliver high-impact seminar-style simulations examining U.S. non-military instruments of power—diplomacy, information, economics, and related tools.
- Serve as a hub for experiential education in strategic statecraft and produce analytic outputs that support sponsor decision-making.

SSG is a pillar of the Gates Initiative in American Statecraft at William & Mary

Fractured Order Overview

- Flagship SSG simulation: seminar-style, multi-sided game of U.S.–PRC economic statecraft and strategic competition.
- Human-in-the-loop adjudication in a notional competitive-stability environment (rivalry without general war).
- Teams: Blue (U.S.), Red (competitors), Green (partners), Business/Industry; White Cell / Control for facilitation and adjudication.
- Core cycle: Strategic Orientation → ACTIONS / Proposals / RFIs → White Cell review → consequences and feedback.

FO 2.0 uses PLENUM as the sole ACTION / Proposal intake and chain of custody for game inputs

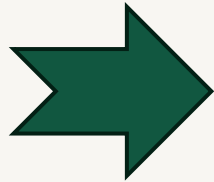

BETA Test Objectives

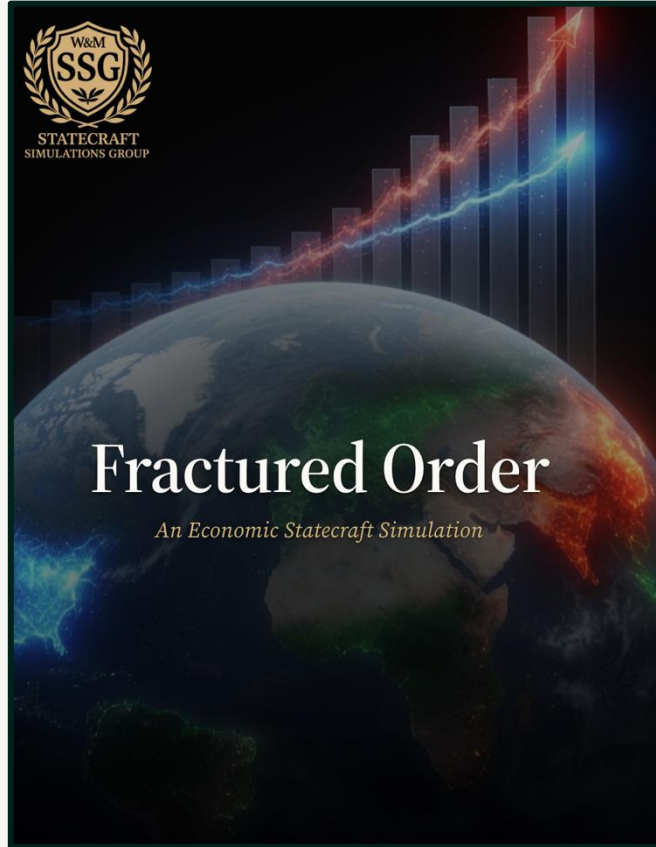

- Demonstrate end-to-end functionality of the PLENUM collaboration tool (T16.1 BETA).
- Exercise MOVE 1 Strategic Orientation: Scribe → Facilitator → White Cell handoff and lock.
- Exercise MOVE 2 action cycle: Action, Proposal, RFI, White Cell deliberation / proposal review, and recipient response.
- Apply White Cell adjudication criteria: plausibility, timing, sequencing, and existing conditions.

Capture usability issues, friction points, and Control Group toolkit notes for iteration

MOVE 2 – Economic PROPOSALS Decision Workflow

Blue Team Example: Global Telecoms Infrastructure

- Blue faced telecom disadvantage and proposed an allied infrastructure alternative.
- Restriction without a credible, coordinated package underperformed in adjudication.
- Partners watched switching costs and implementation detail.

➤ Green Cell

Green diversified when U.S. leadership or implementation detail lagged.

ACTION TITLE: Asia-Pacific future of telecommunications export 2030

OBJECTIVE: Crowd-in alternative 5G telecommunications providers given negative sentiment towards China's SSI in the telecoms industry. Build diversified partnerships between ASEAN and other A-P firms in the telecoms space. Premier expo to highlight the capacity and advantages diverse 5g telecoms providers. Boker new partnerships for ASEAN countries with Japan, SK, and others in the telecoms space.

POLICY TOOL / LEVER: Diplomacy

TARGET Countries / Sectors: Priority partners: Japan, SK, Australia; others..

IMPLEMENTATION: Preliminary diplomatic engagement with Japan, south Korea and Australia about their participation and support for the expo. Expo to be held for A-P countries and interested other countries in Manilla in 2030.

TIMELINE: none given

EXPECTED EFFECT: none given

Red Team

- Red pressed early agriculture and biotech ecosystem gains.
- Red maintained a coherent storyline across finance, standards, and sector initiatives.

Reciprocal FDI Package

1. Response Title

Reciprocal FDI Package (Break the Picket Line)

2. Strategic Assessment

Alliance cohesion around security-restricted investment is uneven; Italy, Turkey, and Greece are assessed as possible weak links if offered capital and reciprocal access.

3. Response Strategy

Disrupt alliance discipline — restore FDI confidence in China and peel selected European partners.

4. Key Actions

Relax security restrictions to incentivize advanced-tech investment into China; offer reciprocal FDI package to Italy, Turkey, and Greece for crossing the picket line.

5. Targets / Pressure Points

Italy, Turkey, Greece; Western FDI confidence; advanced-tech investment channels.

6. Delivery Channel

Regulatory relaxation; bilateral reciprocal investment packages; commercial diplomacy.

7. Expected Effect & System Impact

Divides alliance decoupling posture; pulls selected European capital back into PRC advanced-tech ecosystems.
